Dear Senators:

On behalf of the Professional Services Council, I am writing in support of committee and Senate action to fill the position of the Director of the Office of Management and Budget. The person in this position will lead the vital work to help eliminate arbitrary spending caps, concentrate on measurable results for government activities, and ensure that the government's contracting processes focus on providing the best value for the money. We have worked with the nominee, Congressman Mick Mulvaney, during his service on the House Oversight and Government Reform Committee. His experience on that committee and his work in the House on government management and budget issues will serve him well. We urge your committees, and the full Senate, to move forward quickly on filling this important White House position.

Thank you for your consideration of our recommendation.

Sincerely,

David J. Berteau
President & CEO
